## welcome message

**Dear Colleagues,**

The "India Live 2011" congress promises an academic feast to all participants.

It is indeed heartening to see such a mega response to this meeting which is only in its second year of inception. The conference is being organized at Taj Lands End Mumbai from 18th to 20th February 2011 preceded by a Fellows Course ("Basics and Beyond") on 17th February at the same venue. The details are available on our website [www.indialive2011.com](http://www.indialive2011.com)

The meeting is designed for interventional cardiologists, radiologists, clinical cardiologists, basic scientists, vascular medicine specialists, surgeons, nurses, cath lab technicians and other health care professionals with a special interest in the field of interventional and vascular medicine.

The course will include direct live case relays from renowned institutions. This year there are about 23 demonstration centres including 4 international sites.

The scientific programme has been prepared to ensure knowledge sharing and is a treasure trove of learning. There are several break away parallel sessions on subjects of common and topical interest encountered in coronary and non coronary vascular interventions. Structural heart diseases with percutaneous valve interventions would be forming an integral part of this meeting.

With a prominent faculty comprising of some of the best cardiologists from the Asia Pacific region and rest of the world, we are hopeful of a great academic conference.

Presentation of complex and teaching cases is another highlight of the meeting. The Course Directors are happy to see an encouraging number of case submissions. Special awards will be given to a few selected ones.

In addition to the sessions, the latest devices and pharmaceutical products will be displayed by numerous companies in the exhibit area. The industry has shown keen interest in the meeting and with their encouraging support we hope to make "India Live 2011" a truly world class event.

Besides the science, there will be numerous occasions for networking and meeting old friends and colleagues during social functions planned by the Organizing Committee.

We look forward to welcoming you in Mumbai and seeing you at "India Live 2011".

With warm regards

taj lands end

## the venue - Taj Lands End

Nestling in Bandra, an elite suburb of Mumbai, in the heart of the emerging business district of Mumbai, Taj Lands End boasts the city's finest restaurants, conferencing, banqueting, and business centre facilities. It's unique location makes the Taj Lands End an ideal choice for the traveller offering the best of both the worlds – business as well as pleasure.

Strategically located close to the Bandra-Kurla, Andheri and Worli business districts, this hotel provides the ultimate in modern facilities and convenience. The hotel is situated 12 kms from the international and 8 kms from the domestic airport.

Extensive banqueting space spread over 55,000 sq. Ft., include three private rooms and an opulent pillarless Ballroom. Meeting halls are connected by a spacious pre-function area perfect for exhibition booths, and more.

## general information:

### **Host City – Mumbai, India**

Ancient yet modern, fabulously rich yet achingly poor, Mumbai is India in microcosm. Once a sultry tropical archipelago of seven islands, Mumbai today is a teeming metropolis, commercial hub of an old civilization seeking to find its place in the New World Order.

Forty percent of India's taxes come from this city alone, and half of India's international trade passes through its splendid natural harbour. Everyday, half of Mumbai's population commutes from far-flung suburbs to downtown offices, banks, factories and mills for a living.

Nearly thirteen million people live here - wealthy industrialists, flashy film stars, internationally acclaimed artists, workers, teachers and clerks - all existing in soaring skyscrapers and sprawling slums. They come from diverse ethnic backgrounds and speak over a dozen tongues adding colour, flavour and texture to the Great Mumbai Melting Pot.

### **What to expect**

Besides an excellent scientific programme, INDIA LIVE 2011 gives an opportunity to our guests to visit the various attractions in and around Mumbai, ranging from historical monuments, temples, museums, art galleries to shopping centres. Pre- and post-conference tours can be arranged.

### **Conference Venue - Taj Lands End**

Nestling in Bandra, an elite suburb of Mumbai, in the heart of the emerging business district of Mumbai, Taj Lands End boasts the city's finest restaurants, conferencing, banqueting and business centre facilities. It's unique location makes the Taj Lands End an ideal choice for the traveller offering the best of both worlds – business as well as pleasure.

Strategically located close to the Bandra-Kurla, Andheri and Worli business districts, this hotel provides the ultimate in modern facilities and convenience. The hotel is situated 12 kms from the international and 8 kms from the domestic airport.

### **Weather**

Mumbai is warm in February. Being a coastal city there is limited variation in temperature in this metropolis. In February day time temperatures vary between 30 - 38 degree Centigrade.

### **Visa**

All visitors coming from overseas will require visas which can be obtained from the Indian missions abroad. One should possess a valid passport.

### **Currency**

Exchange rate US\$ 1.00 = ranges from approx Rs. 47-Rs. 50

Exchange Rate Euro €1.00 = ranges from Rs. 65 -Rs.70

### **Voltage**

The line voltage for electricity is 220 A.C., 50 Hz in the subcontinent. Most hotels provide 110 volt A.C. points for electric shavers.

### **Traffic/Horn Blowing**

The rules of the road are simply very different here in India. Traffic generally is much slower than in some other parts of the world, and it is very common to see animals amongst moving traffic. Use great caution when crossing streets. Horn blowing is deemed precautionary and is a constant 24 hour reality.

### **Food And Drink**

- Always drink bottled water. Do not drink water from the tap. However in most good hotels, it is safe to brush teeth with tap water.
- Be careful what you eat. Steer clear of uncooked or peeled fruit and vegetables outside the hotels / quality restaurants. Do sample local restaurants too, but use your good judgement. If it looks iffy, take a pass.
- Eat meats only in restaurants that boast of good hygienic standard.
- Curd or yoghurt is served with most Indian meals. It is a natural aid to digestion and helps to temper the spicy food.
- Do not eat fried food cooked in the streets.

### **Tipping**

- Tipping (where it is warranted) is common practice in India. Its fine to tip in a popular foreign currency or local currency. It is however not compulsory and should be done only if you are happy with the service.

### During Sight Seeing

- Always remove your shoes before entering a holy place such as a temple, gurudwara (Sikh temple) or mosque. You may also require to cover your head. In general, dress conservatively at a place of worship. Avoid wearing clothes that bare your arms, shoulders and legs.
- Some Hindu temples do not permit leather articles and are not open to non-Hindus.
- Most museums in India are closed on Mondays.
- If the sun is strong, remember to use sunscreen on exposed parts of the body. Wear sunglasses to screen out harmful rays.
- Smoking is not allowed at all public places; some restaurants have designated smoking areas.

### Time

- India has only one time zone which covers the entire country. Indian Standard Time (IST) is 5 hours and 30 minutes ahead of GMT.

### Safety and Security

- Follow the same rules of safety that you follow while travelling anywhere else with respect to using hotel safe deposit boxes and keeping travel documents safe.
- When in public places, keep them in your hotel or with you all the time when moving about.
- Always carry the hotel address with you when you leave the hotel.

### Others

- Keep extra photocopies of the relevant pages of your passport in a safe place
- Taxi and auto-rickshaw fares keep changing, and therefore do not always conform to readings on meters. Insist on seeing the latest rate card, available with the driver, and pay accordingly. Avoid taxis that pick up additional passengers.
- Insist on the taxi / auto meter being flagged down in your presence.
- Be wary of impostor porters or guides. Ensure that they are properly uniformed or identified. Never leave your luggage, briefcase or other items unattended.
- In cities you can change most major foreign currencies and brands of travellers' cheques but you'll widen your options and save yourself hassles if you stick to US dollars or pounds sterling.

### **Restrictions on Export of Articles**

- Export of all wild animals indigenous to the country and articles made from such listed animals like skins, pelts, furs, ivory, rhino horns, trophies are totally banned.
- Banned items do not include peacock feathers and handicrafts made from them.
- Antiques which include sculpture, painting or other works of arts or crafts illustrative of science, art, craft, religion of bygone ages and of historical interest which have been in existence for not less than 100 years may not be exported from India.
- Manuscripts or other documents of scientific, historical literary or aesthetic value in existence for not less than 75 years: art treasures not necessarily antiques but of artistic or aesthetic value, also cannot be exported out of India.

### **Language**

The region has a plethora of languages, which vary from state to state. English is widely spoken throughout the sub-continent. Guides and travel professionals are available in most major international languages.

### **Emergency telephone nos.**

**Police - 100**

**Fire - 101**

**Ambulance - 102**

**Blood bank - 22663560 (Red Cross)**
